📋 6 Komponen Utama yang Dihasilkan Sistem untuk Setiap Pelamar:

1. Identity Record (Identitas Terverifikasi):
Nama lengkap resmi (hasil konsensus anti-headline bias), email kontak valid, nomor telepon WhatsApp terstandardisasi (+62), serta enkripsi PII simetris AES-256-GCM.

2. Work Experience Timeline (Riwayat Kerja & Durasi):
Setiap posisi kerja diekstrak dengan judul jabatan, nama perusahaan, start date & end date (YYYY-MM), tipe pekerjaan (Full Time / Internship), dan butir-butir tanggung jawab.

3. Education History (Latar Belakang Akademik):
Nama perguruan tinggi/sekolah, jenjang gelar (S1, S2, D3), program studi/jurusan, serta tahun kelulusan untuk penilaian kriteria pendidikan.

4. Technical & Domain Skills (Keahlian Terstandarisasi):
Kumpulan kata kunci keahlian teknis (bahasa pemrograman, tools, framework, metodologi) yang dinormalisasi dengan kamus taksonomi industri.

5. Smart Boundary Isolation (Pemisahan Lampiran):
Halaman portofolio desain, sertifikat pelatihan, dan transkrip dipisahkan bersih ke objek `portfolio_attachments` agar tidak mencemari riwayat kerja.

6. Pre-flight Gatekeeper Verdict (Status Kelayakan Dokumen):
Menentukan apakah dokumen merupakan CV sah, berkas non-CV yang ditolak (sertifikat murni/ijazah), atau data kotor biner non-dokumen (CSV).

- Thesis: Analysis of Determinant Factors the Reemployment of Married Woman in the Labor Market During &
- Post Covid-19 in Indonesia.
- Description : Conducted a comprehensive study as part of my undergraduate thesis, focusing on the
- economic participation of married women in Indonesia to be able to return to active work or reemployment
- during and shortly after Covid-19. Responsibilities included data analysis and report writing. Utilized

national survey datasets such as SAKERNAS [2020-01 s/d 2022-12]
Perusahaan/Organisasi
- Key findings : Highlighted several factors that can increase the probability of married women returning to
- work in this period. These factors include age, participation in both formal and informal training during the
- Covid-19 pandemic, and the use of internet access in their work. Identified significant barriers and
- opportunities for women re-entering the workforce.
